

MODEL G™ PLUS SHALLOW Poultry Feeder

Made to Work. Built to Last.®

Chore-Time's new Shallow Pan for its MODEL G™ PLUS Poultry Feeder provides easy access for birds from day one. The pan height, like that of most feed trays, is substantially lower than the standard MODEL G™ PLUS pan. The MODEL G™ PLUS SHALLOW retains all the other features and components of the MODEL G™ PLUS feeding system including the benefits of its feed-saving design and optional patented feed windows, so producers can expect outstanding feed conversion from either MODEL G™ PLUS pan style.

Product Features

- All-plastic construction with U.V. protection and reinforced eating and cone-support areas.
- Feed-saving features include Chore-Time's proven, "V"-shaped pan bottom design which places feed where birds can easily reach it. High center cone and anti-rake fins improve feed flow and reduce feed storage capacity.
- Feed windows fill pans high with feed to attract birds from day one.
- Easy-to adjust feed settings for flooding or for a lower feed level as birds grow. Optional slide shut-off.
- Bird-friendly, open 8-spoke grill design and patented feed windows.
- Various models, including non-window models, and two power unit choices.
- Pan attaches securely to the grill or hangs for cleaning.

Product Advantages

- The shallow pan reduces the need for feed trays and extra labor when starting birds.
- Round pan feeders give birds more eating space and provide top feed conversion. Feeder's design saves even more feed.

- Easy-to-see feed level settings make feed management easier.
- Open feeder grill design lets young birds exit pans easily.
- Corrosion-proof, all-plastic pan assembly consists of precision-molded parts for simplicity and reliable operation.
- Pan assemblies are designed for durability and long life.
- Feeder options allow a customized feeding system to suit management style.
- The feeder provides comfortable, easy access to fresh feed for all birds, yet discourages them from wasting feed.
- The flow of fresh feed is controlled from the feed bin all the way to the perimeter of the pan.

Warranty and Service

Chore-Time's MODEL G™ PLUS SHALLOW Poultry Feeding System is backed by a generous warranty and by a worldwide network of trained technical service and distributor professionals.
