

Adjustable Hen-Only Grill (For Separate Sex Feeding)

Made to Work. Built to Last.®

CHORE-TIME®

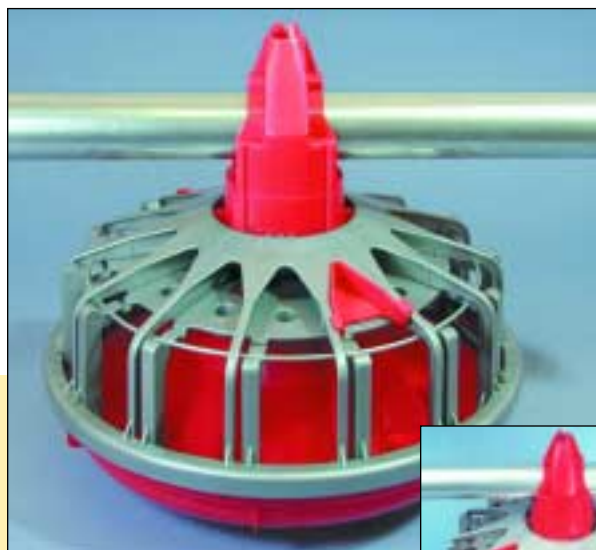

Chore-Time's unique Adjustable Hen-Only Grill allows you to customize both the width and the height of your feeder grill openings using any of 21 possible set-ups to suit your operation! Designed for use with all Chore-Time MODEL C2® PLUS and MODEL C2® feeders, the new grill is easy to adjust without the need to remove the feeder pan first. The new grill features a choice of seven horizontal settings and three vertical openings. Keep your roosters out of your hen feeder with the new adjustable grill from Chore-Time!

Features

-  Grill opening width can be changed at any time.
-  Easy-to-read settings make horizontal adjustment precise.
-  Spacing locks prevent birds from changing feeder settings.
-  Rugged, non-corrosive plastic grill has been designed for bird comfort.
-  Optional adjustment rings change the height of the grill openings.
-  Simple to adjust for best separation of different ages and breeds of birds.

Spacing locks prevent birds from changing feeder settings.

Your choice of seven horizontal openings and three vertical spacings.

Specifications

-  Horizontal spacing from 42.0 to 50.0 mm (1.65 to 1.97 inches).
-  Standard vertical opening of 76.2 mm (3.00 inches).
-  Optional vertical openings of 69.9 or 63.5 mm (2.75 or 2.50 inches).

CHORE-TIME®

With Chore-Time's Hopper Weigh Scales, you can accurately feed your birds a controlled amount of feed. The scales are designed for use with Chore-Time's Rooster and Hen Breeder Feeding Systems. The low-profile design, four-point frame suspension, and ability to easily separate the scale from the feeder line combine to make this our most reliable, user-friendly hopper scale system yet.

Features

-  Low profile design of Hopper Weigh Scale Assembly allows feeder line to be raised or lowered easily using a winch system.
-  Scales can be raised independently of the feeder line for greater flexibility in use and more consistent weighing.
-  Four-point frame suspension helps keep system square and level.
-  Easy-to-read graduated markings make calibration and setting desired feed weight simple.
-  Reliable electronic components in corrosion- and dust-proof housing contribute to accurate, repeatable feedings.
-  Suspension frame and scale assembly are designed to fit existing feeder line hoppers.
-  Weighs up to a capacity of 400 pounds (180 kg).
-  Automatically shuts off the fill system when the desired amount of feed has been delivered to the hopper.
-  Hopper is easily removed for cleaning.

Low-profile design, four-point frame suspension, and independence from the feeder line combine to make this scale user-friendly and reliable.
