

ULTRAPAN[®] Pullet and Breeder Feeder

Made to Work. Built to Last.[™]

CHORE-TIME[®]

Interested in a better way to feed pullets and breeders?

Get the benefits of pan broiler feeding for your pullets and breeders too

The Chore-Time ULTRAPAN® Pullet Feeding System delivers uniform feed rations to every breeder pullet as soon as the feeder starts. Every bird gets its share of the ration for better bird condition and uniformity. Get your birds to sexual maturity with less feed and less stress. Use Chore-Time's ULTRAPAN® for breeder hens too through end-of-lay to continue to get its benefits for your flock!

Product Features

- Each round pan feeder has 14 individual eating spaces. Feeders are made of corrosion-proof plastic.
- The enclosed feeder tube prevents birds from picking over feed like they do with chain feeders.
- Feeder loop tubing stays filled with feed for immediate delivery of fresh, uncontaminated feed every time the feeder operates.
- Female-only grills are available to restrict males when using the feeder for hens.
- Separate rooster feeder is available using the proven, Model G™ Plus feeder pan.

Product Advantages

- Round pan feeders give birds more eating space and greater eating comfort than chain feeders.

- Birds have less eating-time stress, and can move easily to feed and water without the restriction of movement you get with a chain.
- Birds are not exposed to moving parts of equipment as happens with chain feeders.
- Every day feeding is easily accomplished.

Warranty and Service

Chore-Time's ULTRAPAN® Feeding System is backed by a generous warranty and by a worldwide network of trained technical service and distributor professionals who can handle in-warranty as well as out-of-warranty repairs.

For the distributor nearest you, call the Chore-Time Customer Service Department at 219-658-4101.
