

Chore-Time's MULTI-LIFT® Winch Lift System will allow the operator to lift a line or a loop of feeders with a single winch unit. Just the push of a button will raise the system to the ceiling or will easily make a feeder height adjustment to match the size and age of the birds.

### Product Features:

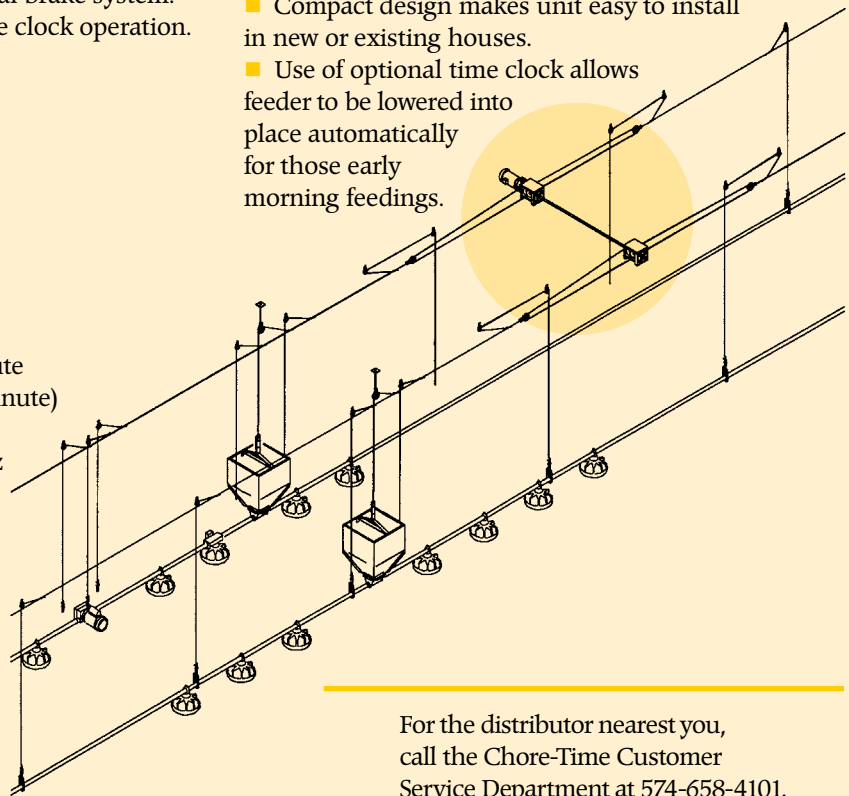

- Unit has a load rating of 3,000 pounds.
- Uses a sturdy 3/16-inch diameter 7 x 19 cable.
- Totally enclosed motor and internal brake system.
- Compact design and optional time clock operation.

### Product Specifications:

- Drive Unit Part No. 37215
- Remote Drum Part No. 37216
- Load Rating 3,000 Pounds (1360.8 kg)
- Drum Capacity 50 Feet (15.24 meters)
- Lift Rate 5 Feet Per Minute (1.52 meters/minute)
- Electrical Rating 3/4 HP 220 V 50/60 Hz

### Product Benefits:

- With proper suspension, this winch can raise any feeder line or loop system in houses up to 500 feet (152 meters) in length.
- High load-rated cable offers long life and maximum cable flexibility.
- Unit promotes longer life for system by shielding the motor from poultry house dust and debris.
- Brake system is also protected from the house environment for enhanced reliability and safety.
- Compact design makes unit easy to install in new or existing houses.
- Use of optional time clock allows feeder to be lowered into place automatically for those early morning feedings.
