

The Heavy-Duty Feeder for Multiple Uses

The MODEL G™ PLUS Multiple-Use Poultry Feeding System from Chore-Time includes a bird-tough plastic grill and a pan shape designed for even better feed conversion. Chore-Time's MODEL G™ PLUS gets birds off to a good start, minimizes wasted feed, and provides birds with consistent access to fresh feed. Whether you are feeding roosters, roasters, turkeys, or other poultry, the MODEL G™ PLUS Feeder is an important part of Chore-Time's SMARTSM Package of equipment for you. Contact us today for more information about our feeding, watering, ventilation and controls package designed for smart producers like you.

Applications for roosters, roasters and poult

Product Features

- Reinforced eating and cone support areas, all-plastic construction, and U.V. protection.
- Easy-to adjust feed settings for flooding or for a lower feed level as birds grow. Optional slide shut-off.
- Rugged 8-spoke plastic grill design.
- Choice of feed window or non-window models, and two power unit choices.
- Pan attaches securely to grill or hangs for cleaning. Optional feed-saver lip extension for some types of poultry.
- Feed saver features include the deep, "V"-shaped pan bottom, double pan lip, and anti-rake fins.

Product Advantages

- Strong pan assemblies are designed for durability and long life in heavy bird applications.
- Feeder options allow a customized feeding system to suit management style and type of poultry being raised.
- Whether starting birds, growing birds, or cleaning between flocks, the system is designed for management simplicity.
- The feeder provides comfortable, easy access to fresh feed for all birds, yet discourages them from wasting feed.
- The flow of fresh feed is controlled from the feed bin all the way to the perimeter of the pan.
