

MODEL ATF™ PLUS Feeder

Proven Reliability PLUS Added Strength and Size for Today's Bigger Birds

Let's grow together.

- (A) Tube is two inches higher – big turkeys walk under the feeder line more easily.
- (B) Turkey tough connection from shield to pan support.
- (C) Two inches more eating space between pan and shield means birds have easier access to feed and waste less.
- (D) Heavy-duty feeder includes thicker pan supports that lock the feed pan in place.

Chore-Time's MODEL ATF™ PLUS Feeder

Chore-Time's MODEL ATF™ PLUS Feeder retains all the reliability, ruggedness, and quality that the industry has come to appreciate about Chore-Time's famous Model ATF™ Feeder, PLUS even greater benefits for you:

- Proven durability for use with 40-pound and larger turkeys.
- Better feed conversion – wide feed saver lip and feed saver ring help retain feed in pan, while larger pan-to-shield opening encourages birds to keep their heads in the feeder for less feed spillage.
- Save labor when flooding pans or lowering feed levels with Chore-Time's time-tested central winching system.
- Better feed flow for today's high-fat feeds is provided by the combination of Chore-Time's large-diameter, welded-seam tube and easy-to-clean plastic pan.
- Consistent, reliable performance in a variety of house conditions thanks to control pans equipped with Chore-Time's optional SENSOR PLUS™ Electronic Feed Sensor.
